

Name: Nazif Ali

Age: 25

Email: nazif.ali334@gmail.com

1) What do you do?

Ans: I am currently appointed as UX/UI designer at Nap Tech Limited and besides I'm studying LLB UK Under the University Of London 1st year.

2) Have you had any experience in teaching?

Ans: Yes, I've taught students while I was a student in university, it lasted from my 2nd year in university till my third year.

3) What classes did you use to teach?

Ans: I used to teach class 3,5, and 7.

4) What are the subjects you usually taught?

Ans: I usually taught science related subjects.

5) Have you had any difficulties in teaching the science subjects?

Ans: I liked teaching to be honest, particularly when it came to teaching science subjects I think it reflects how I have been able to learn through my years in learning science. In my opinion science is really straightforward and I found it easy to teach because it is like common sense to me.

6) Did you have any preferences when it came to teaching materials?

Ans: This is the 21st century and we are open to a lot of resources from browsing the internet to having applications made solely for educational purposes. I would also suggest using google. Apart from that I would also suggest the text books. I prefer teaching from both text books and google parallelly.

7) Have you ever used smartphones for teaching your students?

Ans: Yes, I basically used it to collect different images which were in the book to give my student a better pictorial understanding of the picture. For instance when I taught biology there were numerous diagrams in the books and it was required for the students to get a better visual understanding of them and in order to give my students an in depth understanding I used my phone.

8) What smartphone do you use?

Ans: I've been using android for a while now and I'm not much of an ios fan.

9) As you have been telling us earlier, you have taught your student using several applications from your phone. Can you please name such an application you have used and state the reason for it?

Ans: I used some of these applications, the most famous one among them the app that Khan Academy introduced. This application provided a better visual representation of the diagrams belonging to a particular subject.
